

BRUNA ROCHA LOURENÇO

Almada, Portugal • +351 963917649 • brunarochalourenco@hotmail.com • linkedin.com/in/brunarochal

Full Stack Developer with strong front-end expertise, specialized in React, TypeScript, and the JavaScript ecosystem. Experienced in back-end development with Node.js, Python, and Django, as well as relational and non-relational databases. Comfortable working with Docker, AWS, Azure, and monitoring tools like Datadog. Currently interested in microservices architectures, UI/UX continuous improvement, and technical documentation.

SS

PROFESSIONAL EXPERIENCE

AdviceHealth, Florianópolis, SC

2025 - MOMENT

Mid-level Software Engineer

- Developed interfaces using React, leveraging hooks, Context API, and state management with Redux.
- Styled applications with Tailwind CSS, following SOLID principles.
- Implemented Vite as the build tool for front-end projects.
- Created unit tests for the front-end using Vitest.
- Conducted code reviews and code analysis for the team.
- Built technical documentation using Fumadocs and Bun.
- Worked with Python, Django, and MySQL databases.
- Contributed to the transition from a monolithic architecture to microservices.
- Contributed to UI/UX improvements and implementation of visual standardization.
- Utilized the Datadog platform for monitoring and observability.
- Implemented code review and tests culture.

Preveni, Florianópolis, SC
